Peak Organic Brewing Co. is a small craft brewing company dedicated to making delicious, handcrafted ales using only the finest artisanal ingredients. With roots in home brewing back in the 1990s, brewer Jon Cadoux set about combining his love for beer with an ethic for sustainability. Whenever possible, he would go out and find ingredients from local organic farmers for his homebrews. It was a defining day when Jon discovered that you don't need to sacrifice flavor for sustainability, but that better ingredients actually made the beer more delicious.
