

TABLE & VINE

BEER

of the
MONTH

Every month, our beer staff is pleased to bring you the kind of beers you would expect from a store of Table & Vine's reputation. The world's most unique, exotic and sought after brews somehow always find their way to Table & Vine and in turn, we feature them as our Beer of the Month.

Our Beer of the Month is just the right brew for every reason imaginable. Whether it be a new brewery, a new style, a seasonal brew or just something wild and exciting, you'll ask yourself this... What's the difference between good beer and really great beer? You can purchase good beer just about anywhere. But really great beer... you can only find that at Table & Vine!

Sip by sip or cheer by cheer, you'll always have something to celebrate at Table & Vine!

Blue Moon began brewing their first beers in 1995 at the Sandlot in Denver Colorado.

The goal was to create uniquely-flavored, highly-drinkable, handcrafted beers (and have some fun along the way). It didn't take long to strike gold! One of their first creations made a splash at the World Beer Championships three years in a row. More than a decade later, word's gotten around but not much has changed. They're still just a bunch of friends having fun and making beer.
